

**In this episode,** Cool Careers Correspondent Ivan takes us on a tour of Foresite in Overland Park to learn about the high-demand, high-paying and very cool job of a cybersecurity analyst.

Cybersecurity analysts aim to protect online information for people and businesses. They look for weak spots and security risks in computer systems and work to decrease those risks.

## **Typical Education Required For This Job:** BACHELOR'S DEGREE OR PROFESSIONAL CERTIFICATE

. Why	does David s	say being a	cybersec	urity analyst	is an imp	ortant job?			
		•.							
2. Jobs	in cybersecu	urity are exp	pected to	increase by I	now much	n by 2023?	(Hint: It's a	percentag	e!)
